

Letter of Support of Pope Ump Sunman from a Beam
September 1, 2018

Dear Honorable Judge Sins,

I have known Ump Sunman for many seasons and have known him as a good Ump who has provided support for the community in many ways over the years. Pope Sunman has been a mentor, a supporter, and a friend to the Sunbeams for a long time. I was present when they become Pope and I can say I have never been prouder. I could not help but shed a tear as I watched the event happen. Pope Sunman is an honorable Ump that should not be blamed for an incineration incidents and would never commit such an act except in the case of Self Defense which this clearly was as the Firefighters have clearly admitted to defamation of character.

Pope Sunman is efficient, detail-oriented, and extremely competent. He is the most trustworthy Ump I have ever met. I'm sure we all agree Ave Pope Sunman. And by adding Parker MacMillian III to the defendant list, this has shown to clearly be a political attempt at gaining support for the trial by appealing to the blaseball community that agrees to "Eat The Rich". I put forward that Pope Sunman is not affiliated with the CEO Parker and by adding Parker's name to the list it is intentionally hurting the case of the Wild Wings Legal Defense and the Case of Millennials v. Parker MacMillian III. Any who support that case should not support the Defamation of Pope Sunman.

In summary, I highly recommend that the Firefighters drop all charges against Pope Sunman. Please show your support for Pope Sunman as best you can going forward.

Ave Pope Sunman, Firefighters Delenda est.
